5. O/TR Regulation [redacted]

a. It was suggested that Division Chiefs of TR(G) might give short briefs in the BIC (Support) Course, particularly [redacted] with respect to management functions. S/PP agreed to notify Division Chiefs of TR(G). 25X1

b. Re the functions of D/TR (para M), some question was raised of the review function of D/TR. It was concluded that review of D/TR, with respect to Office training programs, was concerned not with individual on-the-job training, but with group and class training. It was further noted that D/TR responsibilities to DCI required his knowledge of Office training activities, but that his function vis-a-vis the Office primarily was one of advice and assistance.

c. With respect to the briefing function of the Chief, O&B/D, it was noted that the DCI had directed that NSCID #5 on the FI mission should not be revealed to consultants. It was not claimed that such had occurred, but in the interest of security, S/PP agreed to transmit this information to Chief, O&B/D.

d. It was also pointed out that DD/P was having certain difficulties scheduling personnel for the Orientation Course, since new personnel continue to fill the quota allotted, and old hands on duty for more than two years, who had not previously attended, were unable to attend. It was noted that this was not a priority situation, but S/PP agreed to transmit this information to the Chief, O&B/D.

e. Security aspects concerning the Orientation Program were also raised, since various IAC personnel attend. It was agreed that such attendance was excellent public relations, but that certain DD/P personnel should not attend when other-than-Agency personnel are present. It was agreed to transmit this information to the Chief, O&B/D.

6. Training at Non-CIA Facilities:

25X1

a. It was agreed that, once the security aspects of CIA Regulation [redacted] were worked out, the regulation on Training at Non-CIA Facilities would be co-ordinated with the DD/P Training Committee, and that [redacted] would be so advised. 25X1

b. The point of O/TR policy was raised with respect to a "college education at Agency expense" when such training was also of advantage to the Agency. It was pointed out that each case would be decided on its merits, and that O/TR had no *a priori* objection to training leading to a degree if such individuals met the policy requirements approved by the CIA CSB and contained in CIA Regulation [redacted]

25X1

7. S/PP presented a brief of the compilation of Agency training requirements.

8. New Business:

a. The distribution of Training Bulletins according to AB [redacted] was discussed, and it was stated that DD/P would in some cases prefer distribution 25X1

sary of Intelligence Terminology would be held. It was requested that four
